

technik 2016

The Technik magazine is a monthly magazine with a technical focus which is aimed at middle and senior corporate management. It analyses key trends in industry and presents new products and innovations from the areas of IT, industrial automation and production technology. It regularly provides information from the main international trade fairs focussing on engineering, electrical technology and electronics. Regular features in every issue are economic analyses, personality profiles as well as chapters from the theory of management and corporate governance.

THE 2016 TIMETABLE FOR PUBLICATION OF THE TECHNIK MAGAZINE					
Edition number	Editorial closing date	Advertisement closing date	Date of issue	Edition topic	Special feature
1–2	20. 1.	29. 1.	10. 2.	Robotisation, automation	Energy for the future
3	17. 2.	26. 2.	9. 3.	Amper trade fair	Science, research and innovations
4	23. 3.	1. 4.	13. 4.	Machine tools and their accessories	Transport industry in the Czech Republic
5	20. 4.	29. 4.	11. 5.	Company ICT	Company financing
6	18. 5.	27. 5.	8. 6.	Plastic processing technology	Czech glass industry
7–8	13. 7.	22. 7.	3. 8.	Hybrid technologies	Smart grids and smart cities
9	31. 8.	2. 9.	21. 9.	MSV and IMT Brno fairs	Technical education
10	29. 9.	7. 10.	19. 10.	Nanotechnology	Czech food industry
11	26. 10.	4. 11.	16. 11.	Drives and their control systems	Data transfer and processing
12	30. 11.	2. 12.	14. 12.	Construction and production software	Czech business success stories in 2016

Before the advertisement closing date	no fee
After the advertisement closing date	100%
LATER CANCELLATIONS ARE NOT POSSIBLE. ADVERTISEMENTS MUST BE CANCELLED IN WRITING.	

IF THE ADVERTISEMENT IS FULL SIZED, SET BLEEDS OF AT LEAST 5 MM AND CROP MARKS AT LEAST 4 MM.

TECHNICAL REQUIREMENTS FOR ADVERTISEMENTS

1 PDF ACCORDING TO THE PDF/X-1A STANDARD OR PDF VERSION 1.3. (COMPATIBILITY WITH ACROBAT 4.0)

The document must be created by converting a PostScript file to PDF using Adobe Distiller, by printing to PDF or by exporting (for example from Adobe InDesign, Illustrator), but it must adhere to the PDF/X-1a standard or version 1.3. If the advertisement is full sized then set bleeds of at least 5 mm and crop marks at least 4 mm from the actual page edges. The PDF file must not contain objects in the RGB colour space and direct colours, inserted ICC profiles or OPI information.

2. TIFF, JPEG, PSD AND EPS BITMAP FORMATS

The data must be in the CMYK colour space and in the case of TIFF and PSD file formats, merged into a single layer. If the advertisement is full sized, it must contain bleeds of at least 5 mm and crop marks at least 4 mm from the actual edges. Recommended resolution of 300 dpi (at least 200 dpi) at 100% size.

3. EPS VECTOR FORMATS AND INDESIGN DOCUMENTS

The data must be in the CMYK colour space, the text must be converted to curves or the font used must be supplied (if licensing agreements allow). If the advertisement is full sized, set bleeds of at least 5 mm and crop marks at least 4 mm from the actual page edges. The data must not contain any objects in the RGB colour space, direct colours or links to external files (unless they are supplied with the document).

4. OTHER FORMATS BY ARRANGEMENT

It is advisable to supply a colour sample created according to the ISO 12647-2:2004 (FOGRA) standard for colour checking. We accept no liability for the required colouring, if the ISO 12647-2:2004 standard has not been adhered to. We accept no liability for the required colouring or for any errors which may occur when processing the advertisement, if no colour sample has been supplied.

We recommend the use of print profiles according to the ISO 12647-2:2004 standard (ISOcoated v2 FOGRA39, PSO LWC Improved (ECI) FOGRA45) for the colour transfer of the used bitmap files from various colour spaces into the CMYK space. This standard is used when creating the periodical's content and for the creation of the certified proof and the print. We accept no liability for the required colouring when using other ICC profiles or other methods of transferring into CMYK.

Adobe Creative Suite 5 and 6 are used to process the data.

The data can be supplied on a CD or DVD, on portable USB and FireWire (IEEE 1394) disks, by electronic mail, via a FTP server (access upon request), via www.uschovna.cz or using another transfer option by agreement.

The basis for an article presentation in Word format:

1 printed A4 page = 7,000 characters, 1/2 a printed page = 3,500 characters

It is necessary to deduct approx. 1000 characters from the text for every picture inserted into the article.

SPECIALIST EDITIONS, NEWS, SPECIAL FEATURES

WWW.TECHNICKYPORTAL.CZ

TECHNICKÝ TÝDENÍK

A magazine with a 62 year history focusing on industrial practice. The main subjects are engineering, including production software support from design through to the final product, management and automation systems, plastic production and processing, energy and distribution networks and heating. It also traditionally focuses on research and development at all levels in specialist technical schools and specialized research centres. There are regular sections on Energy and Heat, Plastics and TT Motor Show in each issue.

PLASTIC PROCESSING TECHNOLOGIES

An independent supplement in A4 format which entered its 20th year in 2014. It is published bi-annually in an increased print run on the occasion of the Chemplast Nitra, MSV or Plastex Brno, FAKUMA and K trade fairs. It provides a summary of the current state of affairs in the field of plastic moulding machines and their accessories, production technology, materials and software. It is also dedicated to the detailed presentation of the research and development in this area.

MEDICAL DEVICE

An independent magazine issued bi-annually starting in 2014; it follows on from the successful special TT supplement which was published under the name "Medical Production" for five years. It presents the research, development and production of healthcare and laboratory devices. The magazine is mainly distributed independently directly to its target group but also features as a supplement in the Technik magazine.

CUTTING TOOLS AND CLAMPING

An independent supplement in A4 format which is new for 2014. It is published annually in an increased print run and is distributed both independently and as a supplement to the Technik magazine. It is dedicated to the detailed presentation of the field of cutting tools for abrasive jet machining and clamping. As well as a summary of the product range, it also includes company profiles and the results of research and development in this field.

TECHNICAL PORTAL

This internet portal located at www.technickyportal.cz has been operational since 2014 and it is a joint project between the Technical Weekly, Technik and Medical Device magazines. It features technical news, invitations to events, company presentations, series, videos and information about the magazines and their editorial teams, including previews of upcoming editions and a complete archive, all of which can be found on the portal every day.

MSV DAILY

Official "trade fair news" from the International Engineering Fair in Brno. A daily edition for the entire period of the trade fair featuring news for visitors and exhbitors, plus one zero edition which comes out approximately 3 weeks before the event starts. The publication is distributed daily at the exhibition centre's gates to all of the trade fair's exhibitors and visitors.

CONSTRUCTION AND PRODUCTION SOFTWARE

An independent supplement in A4 format which is new for 2014. It is published annually in an increased print run and is distributed both independently and as a supplement to the Technik magazine. It provides a detailed overview of current offers in the field of production software support from construction to the entire life cycle of the product.
