Other formats of advertisements after agreement. Technical requirements and dates for submission of advertisement materials can be found also on www.bmczech.cz in the **SERVIS – ADVERTISING** section

TECHNICAL REQUIREMENTS FOR ADVERTISING

PDF ACCORDING TO THE STANDARD PDF/X-1A OR PDF VERSION 1.3. (ACROBAT 4.0 COMPATIBILITY)

The document shall be created by converting the postscript file with Adobe Distiller, by printing to PDF, by exporting (e.g. from Adobe InDesign, Illustrator), however, on condition that the standard PDF/X-1a or version 1.3 is met. It shall also contain (if the advertisement in an actual size is concerned) at least 5mm of trimming, trim marks at least 4 mm from the actual size. The PDF file can not include objects in an RGB colour space and direct colours, embedded ICC profiles, OPI information.

OTHER SIZES ARE SUBJECT TO AN AGREEMENT.

For the control of colours, please supply, if possible, a colour table created according to ISO 12647-2:2013 (FOGRA51). In the case of non-compliance with ISO 12647-2:2013 we can not guarantee required colours. If you fail to supply the colour table we can not guarantee required colours and we do not assume responsibility for mistakes arising in processing the advertisement. We recommend you to use profiles of the print standard ISO 12647-2:2013 (PSO Coated v3 FOGRA51) for a colour conversion of used bitmap files from various colour spaces to the CMYK colour space. This standard shall be used for periodicals, for certified colour test printing and for printing. If you use other ICC profiles or other methods of conversion to CMYK we can not guarantee required colours.
